

GOLF COURSE MANAGEMENT *

BACHELOR OF SCIENCE

Quarter Credit Hours Required = 180

Online Delivery Only

Virginia College's Bachelor of Science degree in Golf Course Management is designed to provide students with a diversified education in managing and operating a golf course. Having completed the fundamentals in their associate's degree program, baccalaureate students are offered a solid background of practical training in their specific discipline. In addition, students will gain critical thinking skills, management training, and leadership development. This comprehensive program provides graduates with the fundamental skills necessary to adapt to the golf management path they choose to follow.

Upon successful completion of this program, students should be able to

- evaluate the golf management industry and career opportunities in the field;
- establish and maintain high standards of personal and industry ethics at the pro shop;
- conform to professional standards in personal appearance;
- define concepts and procedures for purchasing, receiving, storage, and inventory of golf equipment and supplies;
- apply management principles to the food service industry and demonstrate leadership skills;
- perform front of the house service functions and set and maintain service standards for various customers; and
- describe the origin of various industry standards and their relationship to the history and cultural development of golf.
